

PRICING SAMPLE

THIS PRICING IS PRESENTED FOR BUDGETARY/DISCUSSION PURPOSES AND SHOULD NOT BE CONSTRUED AS AN OFFER. IF YOU ARE INTERESTED IN PROCURING THE BELOW OFFERINGS, PLEASE CONTACT YOUR ACCOUNT MANAGER AT BMC HELIX.

Customer (End User): Amdocs Development Limited

Reseller: Matrix IT Systems Management Ltd

Valid Until: 29 June, 2026

Table 1.1: On-Premise Subscription Table:

Territory: Cyprus

Products	Support Plan	Term	Licensed Capacity		Fees	
			Unit of Measure	Number of Units	Monthly Unit Cost (in USD)	Per Product Fee (in USD)
BMC Discovery - Resource Unit	BMC Continuous Support	30-JUN-2026 to 29-JUN-2027	per resource unit	1	USD 0.02440	USD 0.29
BMC Discovery - Resource Unit	BMC Continuous Support	30-JUN-2026 to 29-JUN-2027	per resource unit	1	USD 0.02440	USD 0.29
Keyva Seamless Data Pump for BMC DSO Solutions - MarketZone	BMC Continuous Support	30-JUN-2026 to 29-JUN-2027	per third-party software	3	USD 898.61115	USD 32,350.00
BMC Helix Service Management OnPrem - Standard - Concurrent User	BMC Continuous Support	30-JUN-2026 to 29-JUN-2027	per concurrent user	80	USD 1.24036	USD 1,190.74
BMC Helix Service Management OnPrem - Standard - Named User	BMC Continuous Support	30-JUN-2026 to 29-JUN-2027	per named user	50	USD 0.41344	USD 248.07
TrueSight Automation for Servers	BMC Continuous Support	30-JUN-2026 to 29-JUN-2027	per managed asset - server endpoint	20,000	USD 12.38420	USD 85,841.75
TrueSight Automation Suite - Base License	BMC Continuous Support	30-JUN-2026 to 29-JUN-2027	per enterprise	1	USD 335.07993	USD 4,020.96
TrueSight Orchestration - Adapters License Add-on	BMC Continuous Support	30-JUN-2026 to 29-JUN-2027	per adapter	3	USD 670.15269	USD 24,125.50
TrueSight Orchestration - Development Pack License Add-on	BMC Continuous Support	30-JUN-2026 to 29-JUN-2027	per enterprise	1	USD 4,356.02117	USD 52,272.25
TrueSight Orchestration - Peer License Add-on	BMC Continuous Support	30-JUN-2026 to 29-JUN-2027	per instance	4	USD 1,474.34596	USD 70,768.61
TrueSight Smart Reporting - Server Automation	BMC Continuous Support	30-JUN-2026 to 29-JUN-2027	per enterprise	1	USD 415.43688	USD 4,985.24

275,803.70

Total On-Premise Subscription License Fees exclusive of applicable taxes (in USD):

USD 275,803.70

TOTAL FEES EXCLUSIVE OF APPLICABLE TAXES (IN USD):

I. PRODUCTS.

A. GENERAL DEFINITIONS: The following definitions apply to the Order and this Attachment A.

“Computer” or **“Server”** has the meaning generally given within the computer industry, which is a single machine, whether a central processing unit, such as a mainframe machine, or a distributed systems machine, such as a Unix or Intel based server. A mainframe machine would be an individual mainframe computer having single or multiple processors or engines. For purposes of distributed systems machines a Computer or Server may be physical or virtual.

"Enterprise" is the environment consisting of all hardware owned or leased by a Customer, or by a Client respectively, in the Territory.

"Licensed Capacity" is the amount of each Product licensed as established in the Order. For licenses based on the power of a computer, Customer agrees to use BMC Helix's then current computer classification scheme, which will be provided upon request.

B. LICENSE RESTRICTIONS: The following restrictions apply to certain Products as they are named today or may be named in the future.

BMC Helix Service Management OnPrem – Standard:

- The license enables Customer to use up to 100 BMC Helix Digital Workplace users for each user and up to 50 BMC Helix Digital Workplace Self-Registered users regardless of the Licensed Capacity.
- The use of the following functionality by Product is excluded.
 - BMC Helix Business Workflows: HR Service Management, Onboarding and Employee Journey, and Workplace Service Management
- **BMC Helix Digital Workplace Users.** Each BMC Helix Digital Workplace user can access an unlimited number of Device Endpoints per user license purchased. A **"Device Endpoint"** is a personal digital assistant, smart-phone, tablet, laptop, desktop workstation or similar computing device.
 - **Connectors.** Any third party Connector (as defined below) distributed by BMC Helix for use with the BMC Helix solution is hereby excluded from the defined term "BMC Helix Subscription Services". Any such third party Connectors are governed by the terms provided with the Connectors and are specifically excluded from this Agreement. For the purposes of this provision, the term **"Connector"** means software code that integrates a third party's product with a BMC Helix Subscription Services.
 - **Licenses.** With respect to third party licenses that Customer requests via BMC Helix Digital Workplace to be provisioned, Customer is solely responsible for: (i) the number of licenses it has licensed from a third party, and (ii) the amounts payable for such licenses. Any license provisioning information provided by BMC Helix Digital Workplace is established solely by the information entered into BMC Helix Digital Workplace by Customer, and is provided "as is" for the convenience of the user. Customer is responsible for monitoring its internal license usage of each third party license, and such third party license's usage and license compliance is governed by the terms of the agreement entered into between Customer and the third party licensor. Customer acknowledges and agrees that this Product does not come embedded with any third-party classification service. Instead, Customer is responsible for obtaining a separate license to use third party classification services, like IBM Watson or Google AI, in connection with the Product. The terms and conditions of Customer's license with the third-party classification services vendor (or its agents or designees) shall solely govern Customer's use of the respective services in connection with the Product and Customer shall be responsible for any costs, overages, penalties, or fees arising from Customer's use of the third-party classification services. Further, Customer shall use the service management capabilities featured in the Products solely in connection with BMC Helix ITSM.

License Allocation Restriction for BMC Helix Service Management Products: Notwithstanding anything to the contrary in this Order or the Agreement, and when the Product is licensed (i) on the "per named user" Unit of Measure, Customer may exchange 3 named user licenses of the Product for 1 license of the same Product with the Unit of Measure of "per concurrent user" or (ii) on the "per concurrent user" Unit of Measure, Customer may exchange 1 concurrent user license for 3 licenses of the same Product with the Unit of Measure of "per named user". Customer will not incur additional charges for such exchange of licenses so long as Customer does not exceed the Licensed Capacity of the Product granted to Customer, however, Customer must: (i) notify BMC Helix in writing of its intent to exchange the Product Licenses and (ii) enter into a separate Order to reflect Customer's new Licensed Capacity and the new Unit of Measure. Customer may make such exchanges no more than once per year during the Term.

TrueSight Automation Suite – Base License:

- Excludes use of TrueSight Orchestration as follows:
 - TrueSight Orchestration Content – Excludes the use of any workflow or runbook content other than Management and Utility actions found in the Operations Management module. Excludes the use of any base adapter. Excludes the use of any non-BMC Helix product application adapter.
 - TrueSight Orchestration Platform – Excludes the use of additional licensed capacity other than what is listed here: 1 peer, 3 Development Studio named user licenses, and 5 Operator Control Panel user licenses. This

entitlement is a 1-time grant across all BMC Helix products that include this access and rights are not cumulative.

TrueSight Orchestration – Adapters License Add-on: Restricts license rights to deploy one unique adapter for every unit licensed; also includes unlimited deployment rights to use Light Weight Activity Peers in combination with licensed adapters; test and development license are provided at no additional cost.

- **Adapter** - a system/interfaces/gateways/connectors used to talk to external applications.
- **Light Weight Activity Peer** - Slave peers/servers that can optionally be added to a grid to accommodate network latencies and/or security topologies when deployed in combination with adapters; these peers do not directly add incremental processing power.

TrueSight Orchestration - Peer License Add-on: Restricts license rights to deploy one peer for every unit licensed; a peer can either be a Configuration Distribution Peer or an Application Peer; test and development license are provided at no additional cost.

- **Application Peer** – Server that executes workflows.
- **Configuration Distribution Peer** – Master application that controls all workflows, including load balancing across the grid of Peers.

C. UNITS OF MEASURE. The following units of measure apply to certain Products. Any reference to “BMC” under this Section shall be deemed a reference to “BMC Helix” as shown below:

UNIT OF MEASURE	UNIT OF MEASURE DEFINITION
per adapter	A license is required for each installation of an adapter that interfaces with the Product.
per concurrent user	A license is required for the maximum number of individual employees or contractors of Customer to whom simultaneous access has been granted to the Product on a computer or multiple computers.
per enterprise	A license is required per Customer and per Client each, regardless of the number of times Customer installs the Product in its Enterprise or its Client’s Enterprise. “ Client ” means a third party whose data is processed by Customer and is only permitted if Customer is an authorized BMC service provider.
per instance	A license is required for all named occurrences of the Product created or installed in the Enterprise.

per managed asset - server endpoint	A license is required for every Server Endpoint monitored, managed (directly or indirectly) or discovered by the Product(s). A “ Server Endpoint ” is any virtual or physical Computer that provides a service for other Computers connected to it via the Internet, extranet, intranet, or other networked technologies. For purposes of clarity, each virtual machine regardless of the environment it is hosted in (data center, private cloud, public cloud, hybrid cloud), it is considered a server endpoint (e.g. each Amazon EC2 instance, Azure VM, Google Compute Engine, OpenStack Virtual Machine).
per named user	A license (with a Classification at the appropriate Level, if applicable) is required for each individual employee or contractor or client of Customer. When user-based interaction is required, a license is required for all individuals for whom access has been granted to the Product on a computer or multiple computers typically via the issuance of a unique ID regardless of whether the individual is actively using the Product at any given time.
per resource unit	A license is required for the highest monthly average of Resource Units monitored, managed or discovered by the Product(s). A Resource Unit (RU) is any type of physical data center asset or cloud computing service with the corresponding values determining the license capacity and product licenses consumed. The following details the list of supported RUs by asset type and their corresponding value: 1 RU = 20 containers; 1 RU = 5 client devices (e.g., laptop, mobile device, or other hardware device permitting access to the Products); 1 RU = 5 network devices, 1 RU = 5 PaaS resources; 1 RU = 1 Server; RU = 5 storage ports; 1 RU = 5 telecommunication devices; 1 RU - 10 IoT devices; 1 RU = 1 undocumented asset. For example, if the desired Licensed Capacity consists of 100 Servers, 200 containers and 50 network devices, the Licensed Capacity would equate to 120 RUs.
per third-party software	A license is required for each installation of the third-party software product that interfaces with the Product.

II. ADDITIONAL BMC HELIX OFFERING TERMS

AI Terms of Use. The parties agree to comply with BMC Helix’s AI Terms of Use, copy of which is located here: <https://www.helixops.ai/content/dam/bmc/corporate/Alterms.pdf>. If and to the extent the EU Artificial Intelligence Act (Regulation (EU) 2024/1689) applies to this Order, the parties further agree to comply with the additional EU AI terms located here: <https://www.helixops.ai/content/dam/bmc/corporate/euafterms.pdf>.

High Risk Use. Customer is responsible for determining the scope of use of the BMC Helix Offerings. BMC Helix has not specifically designed the BMC Helix Offerings for use in high-risk environments such as nuclear facilities, aircraft systems, air traffic control, life

support machines, or weapons systems, where failure could cause death, injury, or serious damage, or any other use defined as high-risk by applicable laws (collectively, “**High Risk Activities**”). BMC Helix disclaims all liability for Customer’s use of the BMC Helix Offerings in direct connection with High Risk Activities.
